

## Key

### Hazardous Waste Management Regulations

#### Proposed Revision “y”

#### **EPA Modifications**

1. Federal Register (FR) July 30, 2003, Page 44659, amends Rules 1200-1-11-.02(1)(e)10 and 1200-1-11-.11 (2)(a)9 and (8)(e)2 to clarify when used oil contaminated with PCBs is regulated under the hazardous waste used oil management standards and when it is not; that mixtures of conditionally exempt small quantity generators (CESQG) waste and used oil are subject to the hazardous waste used oil management standards irrespective of how that mixture is to be recycled; and that the initial marketer of used oil that meets the used oil fuel specification need only keep a record of a shipment of used oil to the facility to which the initial marketer delivers the used oil.
2. Federal Register (FR) April 26, 2004, Page 22601, amends Rules 1200-1-11-.05(28)(a) and 1200-1-11-.06(31)(a) regarding Air Emission Standards for Equipment Leaks for owners and operators of hazardous waste treatment, storage and disposal facilities to exempt air emissions from certain activities covered by the final NESHAP from these hazardous waste standards.

#### **Departmental Modifications**

1. Rule 1200-1-11-.02(1)(d)2(v) is being modified to make certain language identical to EPA’s language and to clarify how to obtain the chromium related exclusion. Additionally, a review fee for each chromium waste stream applicable to the exclusion request is being proposed to be added as Rule 1200-1-11-.08(11).
2. Rule 1200-1-11-.03(4)(e)6(iv) is being modified to include similar inspection and record keeping requirements for 180 days or less storage for a small quantity generator that are currently required for 90 days or less storage for a generator.
3. Rules 1200-1-11-.03(5)(b)1(iv) and (v), .05(5)(f)7 and 8, and .06(5)(f)8 and 9 regarding waste minimization are being deleted and “Reserved”. The Waste Minimization statute is outdated and is being proposed for revision.
4. Rule 1200-1-11-.11(5)(f)7(ii) is being clarified to require that used oil fill lines visually separated from tanks must be clearly labeled on both sides of the obstruction.
5. Certain language is being modified to be identical with EPA’s and miscellaneous clarifications and typo corrections are being added to Rule Chapter 1200-1-11.
